

Appendix: Sustainable Innovation Across Product Lines (Calendar Year 2024)

Large Format Displays (LFDs):

- Achieved EPEAT Gold certification for signage displays, becoming the first brand globally to do so (models IFP6533, IFP7533, IFP8633).
- Certified 67% of LFD models with ENERGY STAR and EPEAT; improved energy efficiency in the new IFP7553 by 21.9% compared to the previous generation.
- Ensured 100% model compliance with RoHS, WEEE, and cTUVus standards, with a focus on recyclability and repairability.

LED Displays:

- Became the first display brand to offer a complete line of energy-efficient LED displays.
- Replaced plastic flight cases with wooden alternatives and adopted water-based inks to reduce chemical waste and improve recyclability.

Monitors:

- Implemented green packaging (carton and cushion) across 100% of VG and VP monitors; incorporated up to 55.8% recycled plastic in the VP series.
- Attained ENERGY STAR certification for 78% of monitors and met EPEAT compliance for 62% of the lineup.
- Achieved TCO Gen 9 certification for 12 monitor models and expanded the EPEAT Gold-certified range to 10 monitors.

Projectors:

- Shifted most models to mercury-free LED and laser light sources, extending lifespan up to 30,000 hours.
- Reduced energy use, CO₂ emissions, and maintenance costs through lamp-free designs.

Software:

- Over 12 million users have registered for the myViewBoard education software platform, expanding digital access and learning impact globally.

About ViewSonic

Founded in 1987 and headquartered in Brea, California, ViewSonic is a leading global provider of visual solutions for the education, business, and consumer markets, with a presence in over 100 countries. The company delivers a unified ecosystem of hardware, software, and services with seamless integration. Its product portfolio includes monitors, projectors, interactive displays, LED displays, commercial displays, video conferencing systems, and industrial solutions. Complementing its hardware is a robust suite of software offerings—including myViewBoard, ClassSwift, TeamOne, Manager, and AirSync—featuring AI-powered tools for collaboration, device
