

## **ViewSonic Triumphs at ISE 2025, Securing Five “Best of Show” Awards**

*Recognized for Excellence in Education, AV Technology, Digital Signage, and Installation Categories*

Brea, California (February 7, 2025)—[ViewSonic Corp.](#), a leading global provider of visual and EdTech solutions, is honored to receive five [Best of Show Awards at ISE 2025](#) for its interactive displays, LED displays, and commercial signage solutions. Recognized across the “Tech & Learning,” “AV Technology,” “Digital Signage,” and “Installation” categories, these accolades reinforce ViewSonic’s commitment to delivering innovations that enhance visual experiences in education, corporate, and commercial settings.

### **Transforming Learning and Collaboration with Award-Winning Interactive Displays**

Hosted at Integrated Systems Europe (ISE), the Best of Show Awards highlight the most pioneering technologies within the professional audiovisual industry. [ViewSonic’s 110-inch ViewBoard 4K Interactive Display](#) earned honors in the “Tech & Learning” category. Designed for large classrooms and corporate training spaces, this display elevates large-scale interactive display experiences with intuitive annotation and collaboration capabilities, boosting engagement and productivity. Furthermore, its NFC-enabled login and single sign-on (SSO) support improving security and sign-in efficiency, ensuring seamless, secure access in modern education and enterprise environments.

In the “AV Technology” category, the [92-inch ViewBoard 5K Interactive Display](#) was recognized for its ability to boost collaboration efficiency. With a 21:9 ultra-wide aspect ratio and high-resolution display, it offers 33% more working space than standard screens for executive meetings, hybrid teamwork, and data-driven presentations, ensuring crystal-clear visuals and effortless multitasking.

### **Advancing Large-Scale Display Solutions with Next-Gen All-in-One LEDs**

ViewSonic’s [Customizable All-in-One LED Display](#) was honored in the “Installation” category, setting a new benchmark for deploying up to 760-inch large-format display with effortless adoption. Designed to combine the versatility of traditional LEDs with the simplicity of all-in-one designs, it is suitable for immersive branding, digital engagement, and high-impact presentations.

Also winning in the “AV Technology” category, ViewSonic’s 3<sup>rd</sup> generation [Foldable 138-inch All-in-One LED Display](#) with a moveable stand offers high mobility that can be easily transported between venues. Featuring pre-assembled, plug-and-play functionality, it eliminates installation complexities, making it the optimal solution for exhibitions, museums, and places where wall-mount installations are not feasible.

### **Redefining Digital Signage with Ultra-Wide Display Innovation**

## NEWS FLASH

The [105-inch 5K Presentation Display](#), the winner in the “Digital Signage” category, is recognized for its high durability. It is designed for 24/7 commercial operation with stunning 5K resolution. Its 21:9 ultra-wide aspect ratio, combined with split-screen functionality, provides ample space for multiple content streams, enhancing digital advertising and corporate messaging while maximizing viewer engagement.

ViewSonic is committed to user-driven innovation across its diverse product lineup, from interactive displays to All-in-One LED and ultra-wide commercial displays. Looking ahead, the company will continue expanding its ecosystem and product portfolio, integrating advanced hardware and software solutions with a strong focus on sustainability. By prioritizing high performance, intelligence, and eco-friendliness, ViewSonic aims to deliver cutting-edge visual solutions to users worldwide.
